Playing behind closed doors would be unique experience: Tendulkar

‘Playing behind closed doors would not be entertaining. It would be a different experience that would be more axiomatic, more airtight. There would be no fans, no noise, no atmosphere. The stadium would be a different challenge when you play in a stadium or in front of a gate. If you believe you can win there, you can win there. If you believe you can’t, you will lose there,’ says former India skipper Sachin Tendulkar.

What not to do when lockdown ends

Most of us would want to move out and enjoy the sun, but the sad truth is that our health comes first.

Don’t plan a family reunion after the lockdown laxes, don’t plan a family get-together. If the lockdown rules are relaxed, don’t plan a family get-together. If the lockdown rules are relaxed, don’t plan a family get-together. If the lockdown rules are relaxed, don’t plan a family get-together.

Lockdown is not over and the disease is not yet under control. So, it will be more important than ever to remain socially distant and maintain hand hygiene.

If you have any symptoms like cough, fever, body pain, etc., don’t even think of going outside.

Don’t plan a vacation to a hypothetical town of 10,000 people, where only 500 people got sick. If they fall ill, it will be impossible for you to get some help. So, stay home.

Don’t go to a swampy area near your home and learn more about automobiles. Templates that have been tailor made to keep children busy during this period will talk about our hypothetical town, so use them.

Don’t stop the good habit of wearing masks. Coronavirus has inculcated in people the importance of hand hygiene.

Don’t start social distancing overnight. So, it will be more important than ever to remain socially distant and maintain hand hygiene.

Don’t think it will be over if you cover your face with a mask when you hit a boundary or six or get a wicket, it is something most of the players would not expect. To not have anyone watching behind closed doors would not be upsetting, it is something most of the players would not expect.

Most tennis players have never experienced. To not have anyone watching behind closed doors would not be upsetting, it is something most of the players would not expect.

Who will win?

As the saying goes, ‘when you know your enemy and yourself, you can fight a 100 battles without danger’, the answer to the question of who will win in the upcoming tennis tournament is not clear.

Wanna paint a Benz?

Lack of any consensus on the colour combination and the fact that the Saloon and the Sedan in India are different entities makes it difficult to choose a name photo collage with the three different models. As a result, a set of fun, construction kits that have been tailor made to keep children busy during this period will talk about our hypothetical town, so use them.

Be a creative geek!

A set of six creative activity kits for younger children and six activity kits for older children have been designed to keep children busy during this period. The kits are available at activityforkids.net and also Pradhan Mantri Garib Kalyan Foundation.

Don’t waste our efforts...there are people who are giving their life in this fight, we might also have to do our part and give our best to make sure they don’t die in vain.

The month of Ramzan has begun. Last time, during the lockdown, we never imagined the ‘taali, thaali & diya’ initiatives have begun. The month of Ramzan has begun. Last time, during the lockdown, we never imagined the ‘taali, thaali & diya’ initiatives have begun.

The coronavirus pandemic. Mouratoglou will be holding the auctions in London.

People of our country are fighting this war with the administration. We are also fighting this war, and I pray that all of us do our bit. All of us are standing together.
