MANIER OF SPEAKING

PERSONATION

In "Aristotle's Rhetoric," personation is one of the means of persuasion. According to Aristotle, personation involves the speaker portraying themselves as someone else. This can be done through actions, gestures, or even through words. By personating, the speaker can either make a point more strongly or make it seem more credible.

BACK TO ARISTOTLE

Aristotle was born in 384 BC and is widely regarded as one of the most significant philosophers in Western history. He was a student of Plato and, in turn, taught Alexander the Great. Aristotle's work in logic, ethics, and metaphysics has been influential and continues to be studied today.

The Art of Persuasive Language

From the TV chef telling you to cook healthy meals, to a magazine article detailing why we need to exercise regularly — providing a point of view and backing it up with facts to persuade the audience, is a critical skill for children to learn.
